THIS IS ATHLETIC DAY.

International Contests at Manhattan Island and Toronto—Yale Wins Many Events.

Wanted, a Place Suitable for the Corbett-Fitzsimmons Mill —Sporting News.

ATHLETICS.

YALE VS. CAMBRIDGE.

Manhattan, Oct. 5.—The weather today is superb for out-door athletics. The fearful heat which troubled the Britishers two weeks ago is not in evidence today, consequently the English athletes feel much more confident of success. The recent defeat of the English visitors have stirred the Cambridge men up to the proper pitch, and Captain Horan has declared that his men would do their best to turn the tide of ill luck this afternoon.

In the first event, 100 yards dash, the entries were: Yale—W. M. Richards, '95; R. W. Burnett '97. Cambridge—E. H. Wilding, Pembroke College; C. H. Lewin. Richards was first, Burnett 2nd, Lewin 3rd, Wilding 4th. Time, 10 1-5.

The second event, 120 yards hurdle, was taken by E. H. Cady, of Yale; Hatch, Yale, 2nd; Pilkington, Cambridge, 3rd. Time, 16 seconds.

Richards, of Yale, took the 300 yards run; Lewin, Cambridge, 2nd. Time, 32 2-5.

Horan, Cambridge, took the half-mile run in 2 minutes 2-5 seconds.

Running high jump—Thompson Yale, 5 feet 8¼ inches; Jennings, 2nd.

Running broad jump—Sheldon, Yale, 1st, with 21 feet 4½ inches; Jennings, Cambridge, 2nd.

Lutyens, Cambridge, won the mile event in 4.35 3-5; Morgan, Yale, second.

Hickock, Yale, won the 16-pound hammer throwing event, 130 feet 7 inches; Cross, Yale, 2nd.

Lewin, Cambridge, was first man in the 440 yards race, 49 4-5; Richards, Yale, second.

Hatch, Yale, took the 120 yards hurdle in 16; Fletcher, 2nd.

TORONTO'S CONTESTS.

Toronto, Oct. 5.—In to-day's events of the C. A. A. A. meeting, Lee won the 100 yards dash in 10 1-5, Humphrey second. Kilpatrick was first home in the 880 yards, Clifford second and Grant third; time 1.54 1-4. R. Williams took the high jump, 5 feet 7 inches; Webber second. Geo Gray won the shot putting contest and Jos. Gray second. In the 220 yards dash Lee was first, Morow second; time 22 4-5. Orton won the mile in 4.24 2-5, A Brodie second.

Mitchell won the 56 pound shot putting contest, 34 feet, 1 inch. Shaw was fist in the 120 yards hurdle, Williams second. Time 16 4-5. Bean took the two mile race, Brodie second; time 9.55 1-5.

THE RING.

New York, Oct. 5.—Frank Erne, of Buffalo, knocked out Jack Skelly, of Brooklyn, at the Manhattan Athletic Club to-night, in the ninth round.

CORBETT MUST FIGHT.

Corpus Christi, Tex., Oct. 5—When the Associated Press correspondent announced the legislature's action of yesterday to Fitzsimmons, he did not show much surprise. "It is only part of the game of Corbett and his gang," he said. "He selected Texas as the battleground because he thought the fight could not come off here. He had a tip that the fight would not come off at Dallas. He will have to fight me sooner or later or get out of the ring." The training quarters are finished and Fitzsimmons is working just as hard as if he was going to fight Corbett to-morrow.

A PLACE CHOSEN.

Chicago, Oct. 5.—President Dan Stuart wired the Associated Press from Dallas to-night as follows: "Everything looks favorable for arrangements being completed within twenty-four hours. At present no one knows which way my face is turned, but when I give the location, I am certain that I have it clinched."

Washington City, Oct. 5.—The treaties and laws of the United States with the Indians and the five civilized tribes are being examined, in view of the report that the Corbett-Fitzsimmons fight will take place in the Indian territory. Under the provisions it is held that the government can keep out the prize fighters unless the Indians agree to the entrance. Whether the Federal government can, even if the Indians consent, prevent the fight, is not quite so clear, and some persons who have examined the law claim that the fight can be brought about without a violation of the law by the Florida Athletic Club leasing a part of the Indian land.

City of Mexico, Oct. 5.—President Diaz has given peremptory orders that the Corbett-Fitzsimmons fight shall not occur on Mexican soil.

Washington City, Oct. 5.—It is positively stated on the authority of Attorney-General Harmon, that the Corbett Fitzsimmons fight will not be permitted in the United States territory. Although he would not disclose his purpose, it is believed that if necessary troops will be ordered out to prevent the fight.

Boston, Oct. 5.—In an interview ex-Champion John L. Sullivan said: "I have never authorized any one to suggest my name as referee for the Corbett-Fitzsimmons fight, and would not, under any circumstances, or for any amount of money, accept the job." Sullivan has not looked so well for years.

Atoka, I. T., Oct. 5.—The Choctaws here are sanguine that the council, which meets at Tuskahoma on Monday next, will pass a bill similar to the one passed by the Texas legislature. Governor Gardner is a full-blood Choctaw Indian, and his opposition to the fight will rival even that of Governor Culberson. The statutes of Arkansas of 1881 are in force in this country, and they are silent so far as they pertain to prize fighting, and there is nothing in the Federal statute books which would warrant the marshal to take a hand to prevent the fight. The attorney-general has signified his willingness to call the militia to the assistance of the Choctaw tribe, if requested to do so. It is not believed that the council has the authority to call upon the United States government to prevent the fight, in the absence of a law prohibiting it on the statute books of the Choctaw nation. Unless the bill is passed, there is nothing here to prevent the mill being pulled off.

If it were possible for the Florida Athletic Club to get permission of the council, then the Federal authorities would not interfere, even if requested to do so by Governor Gardner. A representative of Dan Stuart was here to-day, and the general impression is that an attempt will be made to secure a place two miles below here, on Boggy creek, for the scene of the contest. It is about three hours' run from Dallas to this place. Sufficient lumber can be had to build an enclosure.

City of Mexico, Oct. 5.—President Diaz has said that as prize fighting has been forbidden by all the states of the American union, it should not be tolerated here. The press is unanimous against allowing the fight to occur in this country.

THE WHEEL.

RACES AT ANGELES.

The Victorians who went to Port Angeles yesterday for the bicycle races swept everything before them. The first event called was the haf-mile international, which brought out as starters: T. W. Kavanaugh, T. G. Moody, jr., H. Wille, and H. G. Lincoln. From the start Moody set the pace closely followed by Kavanaugh, who fell, thus giving Moody the race, with H. Wille second. Time, 1:05 1-5. The next event was the quarter mile open, which was also won by Moody. In the one mile open Kavanaugh set the pace for first half mile, closely followed by Lincoln, Wille and Moody in the order named. At the turn Lincoln and Moody spurted for position, which resulted in Moody leading by 25 yards and riding a strong race, when his chain broke, leaving him only a few yards from the finishing point. Kavanaugh won the race, with Lincoln a close second. Time 3.03 1-5.

REORGANIZATION OF CHINA.

Li Hung Chang and the Dowager Empress Working in Harmony.

London, Oct. 5.—A dispatch to the Standard from Shanghai says that Viceroy Li Hung Chang has gone to Peking at the special request of the dowager empress of China, with whom he has always had the most cordial relations. A grand scheme of administrative reorganization has been reported between them, a prominent feature being the removal of the capital from Peking to some more secure place in Central China.

SCARTH SUCCEEDS LOWE

As Deputy Minister of Agriculture —Scarth Preparing to Leave for Ottawa.

A Counterfeiting Family Convicted —Miss Sillas' Feelings Healed by Damages.

Winnipeg, Man., Oct. 5.—That W. B. Scarth is to succeed Lowe as deputy minister of agriculture there seems now but little doubt. Although no official announcement has yet been made, it is understood that Scarth will shortly resign the positions he holds in various local institutions preparatory to his return to the capital.

Wheat deliveries at inland elevators are increasing every day. On Friday the receipts reached 225,000 bushels.

Lindsay, Ont., Oct. 5.—The Murphy family were all found guilty yesterday of uttering counterfeit money. The old man, having been recommended to mercy, was discharged. William, the eldest son, was sentenced to seven years on the first count and three years each on two other counts, to run concurrently. Allen Murphy got five years for the first and eight years on two other counts, Wellington got 8 years on two counts, Richard 5 years; and Fred, the youngest, three years in the reformatory.

Sherbrooke, Oct. 5.—Mark Sherburn, who killed J. H. Hull at Lennoxville last spring, was tried in forty minutes yester day afternoon and a verdict rendered declaring him to be insane. He will be confined to the lunatic asylum as a criminal insane.

Halifax, Oct. 5.—James Scott, for half a century proprietor of the Army and Navy grocery and liquor store, died last night aged 73.

Stratford, Oct. 5.—John Hardman has been found guilty of shooting with intent to kill one Cameron, proprietor of the Albion hotel, and was sentenced to three years and two months in Kingston penitentiary.

Stratford, Oct. 5.—Mrs. Elizabeth Sillas was to-day awarded $5,000 damages in her breach of promise case against James James, who formerly kept a hotel in London. The plaintiff was in his employ as cook for some years, and James promised to marry her, but lately he married a young woman in London, hence the suit. No one appeared for he defence, and the jury promptly gave a verdict as stated.

Quebec, Oct. 5.—Owen Murphy, mayor of Quebec, and ex-member of the local legislature, died yesterday.

St. John, N. B., Oct. 5.—The international exhibition closed last night. It has been a great success. The total attendance has been just above 56,000. The first class yacht race, which was sailed Tuesday, and ordered by the committee to be resailed to-day, resulted in an easy victory for Ross' Maple Leaf.

BRITAIN AND VENEZUELA.

There is no Change in the Situation—England Has Made no Move.

London, Oct. 5.—N. Geach Burch, Venezuelan consul here in an interview to-day said ther had been absolutely no new development in the boundary question dispute between Great Britain and Venezuela since Dr. Pulido, Venezuelan minister of foreign affairs, received Great Britain's decision in the matter some time ago. He thought, however, that Dr. Pulido's arrival in New York was posibly connected with the mission entrusted to him by the Venezuelan government to make further representations to the United States government.

Madrid, Oct. 5.—A dispatch from Havana to the Herald, of this city, says it is reported at Havana that the Spanish cruiser Conde de Venadito, which was sent to the assistance of the wrecked cruiser Cristobal Colon, has been lost. It should be added, however, that the official dispatches received here to-day make no mention of any such report and therefore it is hoped that the news is not true.

Athens, Oct. 5.—Dispatches received here from the island of Crete show the situation of affairs there to be very unsettled. Many murders have been committed and robberies and other acts of lawlessness are reported to be of frequent occurrence. As a result the governor of Crete has offered to resign his position, and the matter is now understood to be under consideration. The Creteans have been deeply impressed with the Armenian troubles at Constantinople; the later are naturally greatly magnified and the inhabitants of the island have presented a long memorial to the representatives of the Powers against the Turkish adminstration in Crete.

Paris, Oct. 5.—The funeral cortege conveying the remains of the late Prof. Louis Pasteur to Notre Dame Cathedral left the Pasteur Institute at 10:30 a.m., General Saucier, military governor of Paris, headed the escort of troops. An almost innumerable number of wreaths were borne before the coffin, which was followed by the family of the deceased, ministers, senators, deputies and numerous other delegations from different scientific and other bodies from all parts of France and many foreign countries. An immense concourse of people lined the streets through which the funeral procession passed, although the sky was heavy and a downpour of rain threatened. The procession arrived at Notre Dame Cathedral at noon and shortly afterwards the funeral service commenced.

NEW ADVERTISEMENTS.

WANTED—Situation as housekeeper or stewardess, or any place of trust, by middle-aged widow; good home wanted more than salary; best references. Apply K. 15 Caledonia avenue. oc.5-1w

THREATENED WITH FAMINE.

Spanish Army Demoralized, and Rebels Overrunning the Island.

New York, Oct. 5.—The World prints extracts from a private letter from Cuba which predicts a famine if the war continues. The troops in the interior part of the island are suffering unheard-of hardships. They are famished, without clothes, shoeless, and without medical attendance. The very officers confess the demoralization of the army and pronounce the difficulty insurmountable. The departments of Santiago, Puerto Principe, Santa Clara and Martanzas—that is to say ,nearly all of the island—are being devastated. Everywhere small parties of rebels patrol the country with perfect impunity, robbing and firing property. In the streets of Havana there is a stock of sugar of 300,000 tons without buyers. The sugar estates have no money to pay their workingmen, who are driven by starvation to join the rebels. No life is safe in the country. The only money in circulation is the $5,000,000 of monthly pay of the army, of which some is remitted to the officers' families in Spain. The sugar planters are ruined completely. The picture that Cuba presents to-day is very gloomy, and the future is very, very dark.

AMERICAN SEALERS.

'Frisco Owners Disgusted With the Season's Work—Sale at Seattle.

Referring to San Francisco sealers, the Call of that city says: "The sealers are disgusted with the results of last season's ventures. Not half a dozen of the schooners paid expenses and the hunters and sailors have returned poorer than when they left here last year. In consequence only about a third of the fleet will be fitted out next season, and there will be plenty of idle men along the front."

Seattle Press Times: "The sale of sealskins made yesterday in this city, was the first sale made on the Pacific coast this year, and is considered a good sale. The skins, numbering near 1,100, were immediately packed and shipped to the big furriers, Lampson & Co., No. 64 Queen street, London, England. Ten dollars and fifty cents might effect a good many sales if the sealers would consent to accept it. They are asking not lower than $11, and the result is that no skins have been sold except the sale of yesterday at $10.50. The trouble, it is said, is that the sealers are asking too much, and more than they will get It is said that a good many skins would change hands at once if the sealers would take $10 for them."

ROBBED THE MISSION BOARD.

Treasurer and Secretary Make Away With $41,000.

Minneapolis, Oct. 5.—One of the principal reports presented to the board of missions at the Episcopalian meeting to-day was that of the executive committee of the American Church Missionary Society, read by Secretary Cole. It was the first public and official utterance as to the embezzlement of $41,000 by the former treasurer, Henry A. Oakley, and the former secretary, Rev. Wm. A. Newbold. It had been hoped to avoid all public reference to the affair, but this was found to be impossible. The amount taken by Oakley has been computed to be $21,823 and by Newbold $19,034.16, from September 1st, 1887. The defalcation was made possible by the fact that there was no check on the accounts of either, save of the other officer, and it was upon this they relied for safety. The treasurer has reimbursed the society, but the secretary had no money, nor was there anyone sufficiently interested in him to make it good. The committee had decided not to prosecute either officer. It would be impossible to prosecute the treasurer without returning the money made good, as it had come from another source. No promises had been made, but prosecution seemed impossible. The secretary was old, penniless and disgraced. To prosecute him and not proceed against the treasurer, would leave the board justly open to the charge that the prosecution was not because he took money, but because he had no friends to pay it back.

The secretary has charge of the domestic missions as well as those in Cuba and Brazil. It was reported that wonderful progress had been made in Brazil, but that the outbreak of war in Cuba had stopped promising work around Matanzas. The board of managers presented a lengthy printed report to the board of missions. The field in Alaska had been entered with the assistance of Bishop Baker, of Olympia. Following the manager's report brief addresses were made on their work by Bishop Ferguson (colored), of West Africa; Bishop Graves, of China; Bishop McKim, of Japan, and Bishop Neisen, of Georgia, on the Afro-American work, and Bishop Brooks, of Oklahama, on the Indian work.

None But Ayer's at the World's Fair.

Ayer's Sarsaparilla enjoys the extraordinary distinction of having been the only blood purifier allowed an exhibit at the World's fair, Chicago. Manufacturers of other sarsaparillas sought by every means to obtain a showing of their goods, but they were all turned away under the application of the rule forbidding the entry of patent medicines and nostrums. The decision of the World's fair authorities in favor of Ayer's Sarsaparilla was in effect as follows: "Ayer's Sarsaparilla is not a patent medicine. It does not belong to the list of nostrums. It is here on its merits."

—New line of pocket cutlery just opened at Fox's, 78 Government street. Shaving outfits a specialty, guaranteed.

—Wall Papers! Wall Papers! The largest stock in the province can be seen at Weiler Bros.

MARKET WEAK YESTERDAY.

Professional Operators Controlling—The Week's Failures in Canada.

New York, Oct. 5.—The Post's special financial cable to-day is as follows: A further heavy slump in mines to-day demoralized all the markets. Heavy sales from Paris were the main reason, an organized attempt to squeeze out the weak men appears to be in progress there. It is said that the French government, which views with dislike the manner in which Rentes have recently been sold, and the money applied to mines, is doing its utmost to check the speculation. Prices, however, closed above the worst and all markets were dull. Americans dwindled fractionally and there was no business. The Markets were firm in Berlin to-day; money is falling.

In Paris money is dearer and rates rising. The banks are borrowing for three and six months on the security of Rentes.

Bradstreet's reports the total bank clearings during the week for the Dominion of Canada as follow: Montreal $11,732,500, decrease 12.0 per cent.; Toronto $5,737,829, decrease 2.2; Halifax $1,233,084, decrease 12.1; Winnipeg $1,170,887, decrease 21.4; Hamilton $667,178, increase 18. Totals $20,541,508, decrease 9.6.

Weakness characterized to-day's speculation almost without interruption from the outset to the close. As has been the case all of the present week, the professional dealers were almost entirely responsible for the fluctuations. At the same time there was no important disquieting news. The market showed increased activity compared with yesterday, the foremost groups being the industrials and Grangers. The leaders were sugar, Chicago gas, St. Paul and distilling. Gossip affecting the industrials was the chief motive power of the market, although it started out handicapped by lower prices for American securities in London, and by rumors of probable monetary disturbances abroad in connection with the widespread speculative fever in Kaffirs. In the late session, a rise in call money rates was unfavorably reflected in the speculation. Sugar suffered from the publication of alleged statistical reports purporting to show a less encouraging outlook for the industry than has generally held to be the case. The most important factor in the Granger group noticeable was the heavy foreign selling of St. Paul. The market opened animated and weak, with general fractional losses. The pressure to sell was soon relaxed and a rally occurred of 1-8 to 1 1-8 per cent., sugar being the most conspicuous. About midday the bears again assumed the aggressive and, on an increased volume of business, prices receded sharply. There was a halt in the reactionary movement around delivery hour and some slight gains were established, but were not maintained. The closing was weak and at about the lowest of the day.

R. G. Dun's review of the week says the failures in three days have been 207 in the United States, against 219 last year, and 41 in Canada, against 40 last year.

R. G .Dun's report of the week gives the failures in the third quarter of 1895 as 2792, with liabilities of $32,167,179, averaging $11,521 per firm, against $10,028, last year, about 15 per cent. more. The rate of commercial mortality, 234 failures in a quarter for every 1000 firms in business, is lower than last year, and the proportion of defaulted liability to solvent business represented by payments through the clearing houses, is but 2.49 per $1000 against 2.77 last year. Comparisons of prices this week show about September 3rd the lowest range ever known for wholesale prices of all commodities, notwithstanding advances since March, of 20 per cent. in cotton goods, 30 per cent. in boots and shoes, and 53 per cent. in iron and steel products, while in woollen goods there has been scarcely any advance, and in all food products taken together, a fall of 17 per cent. Tables given show a falling off in food products of 23.2 per cent., in the five years since Oct., 1890; in woollen goods 22.5 per cent.; in iron products, 16.4 per cent., and in cotton goods 12.5 per cent.; while boots and shoes are a little higher, and in leather and hides much higher than five years ago. The cotton market has mounted above nine cents and holds in spite of realizing, but as the crop is late and quite largely held back, it does not yet feel the influence of the receipts natural at this date. Reports of injury and low estimates of yield have impressed all minds, while few remember the stocks brought over. Receipts are growing, but for the month have been 275,000 bales less than last year. Wheat is a shade weaker and western receipts have been 6,550,494 bushels, against 4,487,104 last year, while Atlantic exports have been only 1,938,179 bushels, against 2,791,489 last year. Corn is but a little lower, though beginning to move quite largely. Scarcely any damage appears from recent frost ly any damage appears from recent frosts and storms, but the year is notable for heavy frosts in May and September, only four months apart. Reports from other cities at the end of the quarter are highly cheering and reflect a hopeful spirit. Beyond question the quarter has shown astonishing improvement in some branches, and retail distribution has generally been good, though not commensurate with speculative wholesale purchases as prices were rising. The Pennsylvania railroad have ordered 40,000 tons of steel rails, and other roads 85,000, but the steel makers having bought their pig, Bessemer is lower, and also gray forge, and the demand for finished products is decidedly smaller, so that the average of iron prices turns ownward for the first time since February. Coke workers gain 6 per cent. more wages, and coke is raised 18 to 33 per cent. Leather and hides are but a shade weaker. The demand for cotton goods is strong, as they have advanced 20 per cent., while cotton has risen 64 per cent. Wool speculation continues with enormous transactions, 10,960,200 pounds for the week, and for the month 35,636,170 pounds, of which 19,165,700 were domestic, against 37,288,400 in 1892, of which 26,197,800 were domestic; but the average of 10 quotations is one cent lower than a month ago.

—For a pain in the chest a piece of flannel dampened with Chamberlain's Pain Balm and bound on over the seat of the pain, and another on the back between the shoulders, will afford prompt relief. This is especially valuable in cases where the pain is caused by a cold and there is a tendency toward pneumonia. For sale by all druggists. Langley & Co., wholesale agents, Victoria and Vancouver.

BRITAIN WANTS TO KNOW

If China Acted in Good Faith—Dangers of the Deep.

London, Oct. 5.—The British minister at Peking, Mr. N. R. O'Connor, has been instructed to ascertain whether the degradation of the viceroy of Szechuan was decided upon prior to the acceptance by China of the ultimatum of Great Britain, as stated by Sir Halliday McCartney, the counsellor of the Chinese ministry in this city.

A royal proclamation was gazetted today further proroguing parliament to December 23rd.

A dispatch to Lloyd's from the Lizard says that a large Austrian steamer, as well as a British ship, the Mount Carmel, from Sydney for London, were west of that point this evening showing signals of distress. Tugs and life boats were sent to their assistance. The Norwegian bark Haabet, in addition was reported ashore on the Croyde Sands, and breaking up. Her crew were rescued by the use of the rocket apparatus.

A telegram to Lloyd's from the Scilly Isles this evening announces that a Wilson liner was passing there towing the British steamship Architect from Pernambuco to Liverpool. The Architect had lost her propeller. A Harrison liner was sighted northwest of the Scilly Isles with her rudder lost, and a Wilson liner was standing by her.

Glasgow, Oct. 5.—The Spanish government has taken steps to insure the safety of the gunboats being built for Spain on the Clyde, and which it was reported the insurgents of Cuba intended to prevent reaching Cuba.

That Tired Feeling

Means danger. It is a serious condition and will lead to disastrous results if it is not overcome at once. It is a sure sign that the blood is impoverished and impure. The best remedy is

HOOD'S Sarsaparilla

Which makes rich, red blood, and thus gives strength and elasticity to the muscles, vigor to the brain and health and vitality to every part of the body. Hood's Sarsaparilla positively

Makes the Weak Strong

"I have used six bottles of Hood's Sarsaparilla as a general tonic and have enjoyed the best of health. Although I had a strain of work I have had no sick spells for many months and no lost time, so I am doubly repaid." THOMAS S. HILL, 251 Brussels St., St. John, New Brunswick.

Hood's Sarsaparilla Is the Only True Blood Purifier

Prominently in the public eye.

LEGAL NOTICES.

Notice of Assignment.

Notice is hereby given that William Joseph Jeffree, of the City of Victoria, in the province of British Columbia, clothier, has, by deed dated the 26th day of September, 1895, assigned all his personal estate, credits and effects which may be seized and sold under execution, and all his real estate, to George Chester Shaw, of the city of Victoria aforesaid, commission merchant, in trust for the benefit of all the creditors of the said William Joseph Jeffree.

The said deed was executed by the said William Joseph Jeffree and George Chester Shaw on the 26th day of September, A. D. 1895.

All creditors are requested to send full particulars of their claims to the trustee, on or before the first day of November, 1895.

Dated the 26th day of September, 1895.

H. G. HALL,
Solicitor for the Trustee.

SAVED MUCH SUFFERING.

REV. FATHER BUTLER'S INTERESTING EXPERIENCE.

Suffered From an Abscess in the Side Which Dr. Williams' Pink Pills Cured After Other Medicines Failed.

Caledonia, N. S., Gold Hunter.

Faith leads many to believe, yet when one has experienced anything and has reason to rejoice, it is far stronger proof than faith without reasonable proof. About four miles from Caledonia, along a pleasant road, passing by numerous farms, lives Rev. T. J. Butler, the parish priest of this district. Reports having come to the ears of our reporter about a wonderful cure effected by Dr. Williams' Pink Pills, he called on Mr. Butler to seek information on the subject. Mr. Butler spoke in very high terms of the Pink Pills, and said they had saved him untold suffering, and perhaps saved his life. The reverend gentleman felt a little hesitancy at giving a public testimonial at first, but after our reporter remarked that if one was really grateful for a remarkable cure, he though it was his duty to give it publicity for humanity's sake, he cheerfully consented. His story in his own words is as follows:—"I was led to take Pink Pills through reading the testimonials in the papers. I was troubled with an abcess in my side and had tried many different medicines without avail. I took medical advice on the subject, and was told I would have to undergo an operation to cure it which would cost me about $100. At last I determined to try Pink Pills, but without a great feeling of faith of their curing me. One box helped me and I resolved to take a three months' course and give them a fair trial. I did so, and to-day I am completely cured of the abcess in my side through using Pink Pills, and I always recommend friends of mine to use Pink Pills for diseases of the blood."

As Father Butler is well known througout this county, his statement is a clincher to the many wonderful testimonials that have appeared in the Gold Hunter from time to time. On enquiring at the stores of J. E. Cushing and N. F. Douglas, it was found that Pink Pills have a sale second to none. Mr. Cushing on being asked if he knew of any cures effected by them replied that he had heard a great many personally say Pink Pills had helped them wonderfully. If given a fair and thorough trial Pink Pills are a certain cure for all diseases of the blood and nerves, such as rheumatism, neuralgia, partial paralysis, locomotor ataxia, St. Vitus' dance, nervous headache, nervous prostration, and the tired feeling therefrom, the after effects of la grippe, diseases depending upon humors in the blood, such as scrofula, chronic erysipelas, etc. Pink Pills give a healthy glow to pale and sallow complexions, and are a specific for the troubles peculiar to the female system, and in the case of men they effect a radical cure in all cases arising from mental worry, overwork or excesses of any nature. Sold by all dealers or sent by mail, postpaid, at 50 cents a box or six boxes for $2.50, by addressing the Dr. Williams Medicine Company, Brockville, Ont., or Schenectady, N. Y. Beware of imitations and substitutes alleged to be "just as good."

F. S. & C. For All Points on Puget Sound

"F. S. & C." applied to steamer Rosane means, fast, safe and comfortable. This new steamer leaves Victoria daily at 9 a.m., except Sundays, for Port Townsend and Seattle, arriving at Seattle at 4 p.m., connecting with steamer Flyer daily for Tacoma, and Great Northern trains for all points east and south. Returning—Steamer leaves Seattle at 11:30 p.m. daily, except Sundays, arriving at Victoria at 6:30 a.m. Local and through tickets at Great Northern R.R. office, 75 Government street. *

BOARD OF TRADE EXCURSION

Report Presented at the Quarterly Meeting of the Board Yesterday.

Some Facts and Figures Regarding Mines and Mining in Kootenay.

At the quarterly meeting of the British Columbia Board of Trade, held yesterday afternoon, the new by-laws framed by a committee were adopted. Mr. John Earsman was elected a member of the board. The report of the Board of Trade excursionists follows:

To the Members of the British Columbia Board of Trade, Victoria:

Gentlemen:—Since the previous meeting of the board the members of the board whose names appear in a list appended hereto have visited Kootenay, and we now beg to report the information acquired and impressions received by them.

The tour included Trail, Nelson, Ainsworth, Kaslo and Slocan mining divisions, and the principal properties in each were inspected.

From Revelstoke south the country traversed is mountainous, the higher summits exceeding 8000 feet, upon which snow remains throughout the year. The timber line appears to be 7000 feet above the sea; below this the growth is varied, in places there is an abundance of well grown timber whilst other parts are inferior in this respect, and some of the mountains are almost barren. Portions of the wooded area at high elevations are free of undergrowth and remarkably picturesque.

West Kootenay possesses many natural advantages, the most important of which are the navigable waters of the rivers and lakes, over 300 miles in length. On the Columbia river a first class steamer service is operated by the Columbia & Kootenay Navigation Company as a feeder to the Canadian Pacific Railway. On the Kootenay river and lake the same company has other steamers connecting at Nelson with the Kootenay & Columbia Railway, operated by the Canadian Pacific Railway; and the Nelson & Fort Sheppard Railway. At Bonners Ferry the steamers connect with the Great Northern Railway, thus giving the district competitive rates with the Canadian Pacific Railway and two American Transcontinental railways. There are several other steamers plying on the lakes and rivers. Short lines of railways have been constructed to bring the products of the mines to these waterways, and to form a connection between the Columbia river and the Kootenay lake. Considering how recently this country has been under development it is well opened up.

The town of Rossland, situated 10 miles north of the boundary, dates only from the early part of this year and is now the headquarters and central trading point of the Trail division. Over 200 well built frame houses, including stores and hotels, have been erected on the townsite and the population in and adjacent thereto numbers approximately 2000 souls.

The Cliff was the first mine visited, distant about 15 minutes ride from Rossland. The upper tunnel has been driven in 190 feet, and the ore averages $35 per ton in gold and copper. Shipments have already commenced. Passing on to the Le Roi we found extensive works in operation upon which the sum of $150,000 had been expended. The main shaft from which the ore is taken is down 375 feet, and the present output is 100 tons per diem. The average value of the ore is $40 per ton in gold, silver, iron and copper. The vein is in no place less than 6 feet in width and in the lower levels widens to 30 feet; the best ore yet found was taken from the bottom of the shaft. Eighty-five men are employed in connection with this mine, the miners and helpers being paid $3.50 and $3 per day respectively. The ore costs to mine $5 per ton; transportation by waggon to Northport, freight to the smelter and treatment and additional $13.50; it will thus be seen that there remains a good margin of profit, and at the date of our visit there was the sum of $50,000 cash available for the payment of a dividend, this over and above the repayment of all outlay on the mine by sale of ore. The War Eagle adjoins the Le Roi and the character and value of the ore are very similar to the last named. As this mine is referred to in the annual report, it is only necessary to state that another dividend of $50,000 has since been declared, making a total of $132,000 paid within six months. Ore has been shipped from other properties in this division, notably from the Josie; and much development work is progressing at all points. All around this centre the mountains are alive with prospectors and miners; 1600 new claims have been recorded within the past six months and there is reason to believe that many of them when developed will reveal mineral in richness and quantity as great as any mine now in operation. Prior to 1890 very little was known of this division and the present activity is due to the recent development of the Le Roi and War Eagle mines, both of which have paid ever since work commenced on them. The fact that the veins of ore so far developed increase in width and richness with depth is an unmistakable indication of permanency. A smelter is being erected at Trail, on the Columbia river, for the treatment of the ore of this district.

The next mine visited was the Poorman, on Eagle creek, near Nelson, where there is a ten-stamp mill in operation with a capacity of 20 tons per day. The ore averages about $20 in gold per ton, the vein from which it is taken varying from ten inches to two feet in thickness. Other veins have been found on the claim and the development work has exposed a large quantity of ore rich in gold. The Silver King is situated 5000 feet above, and as the crow flies, is about 4 1-2 miles from Nelson. Here ore is already in sight to an estimated value of $3,000,000. Six hundred and forty tons shipped carried silver 116 ounces, copper 12 per cent. and gold $2 per ton. The aerial tramway is nearly completed. It will connect the mine with a smelter now in course of erection at Nelson. There are several other rich mines on Toad Mountain, tributary to Nelson.

The town of Nelson was laid out seven years ago; many substantial buildings have since been erected and the principal government offices of the district are located there, as well as branches of the Bank of British Columbia and the Bank of Montreal. The population of and tributary to Nelson is probably 1000 souls.

The largest body of ore yet found in Kootenay is at the Blue Bell mine, situated on Kootenay lake about opposite Ainsworth. The tunnel, 1100 feet in length, entered almost immediately upon stepping off the steamer, is at the far end 170 feet below the surface of the hill. Although ore has been taken out in places to a width of over 70 feet, the foot wall has not yet been found, and the vein has been traced for nearly a mile in length. It is composed of bisulphide and bicarbonate of lead, galena and copper, value from $11 to $30 per ton. The ore is treated at the smelter at Pilot Bay, some seven miles distant, the mine being owned by the smelter company.

The Pilot Bay smelter is equipped with machinery of the most modern type and the arrangements generally are such that manual labor is reduced to a minimum in every branch. At the time of our visit 100 tons of ore were being treated daily.

Ainsworth, situated on the opposite side of Kootenay lake, is one of the oldest camps in the district. Some mines tributary thereto are being worked and produce silver ore proper, known as dry ore.

The town of Kaslo, ten miles north of Ainsworth, is a busy mining centre. It has only been in existence about three years, and nothwithstanding serious reverses by fire and flood, it stands to-day on a more solid basis than ever. The Kaslo & Slocan railway is now being built from this point to Cody creek, with a branch into Sandon, distance 30 miles. It will probably be ready for traffic at the end of October.

We left the train 15 miles from Kaslo and proceeded to Three Forks by way of the Jackson divide and Sandon. En route the Northern Bell was visited, a mine upon which considerable development work has been done. Five hundred tons of ore have been shipped, averaging 90 ounces of silver per ton and 70 per cent. lead, and we found 200 tons more were nearly ready for shipment. The vein of concentrating ore varies from 6 feet to 20 feet in thickness. The ore vein of the Noble Five, 3 feet to 4 feet in width, has been disclosed to a depth of 300 feet, and the bottom is not yet found, nor is the length known. Three thousand feet of tunnels have been driven in and 20 men were continuing the work in day and night shifts. The miners work ten hours per day for which they are paid $3.50. There have been shipped from this mine 1800 tons of ore, and we saw several thousands of tons of concentrating ore on the dump, worth probably $30 per ton. Shipping ore contains an average of 135 ounces of silver per ton and 73 per cent. of lead. The ore is steel, wavy and cube galena, and carbonates. Four-fifths of this mine is still owned by the locators. The Deadman mine adjoins the last named and the ore is of similar character. The vein is 4 feet wide and has been traced 200 feet deep. About 300 tons of ore were sacked and ready for shipment, quality being equal to a carload shipped which averaged 150 ounces of silver to the ton and 40 per cent. of lead. The Last Chance, situated on the Noble Five mountain, is also a very promising mine; development commenced in August 1894, having paid from the start. The tunnels have been driven, aggregating in length 300 feet, also an additional level to tap the vein 150 feet below the croppings. The vein stands nearly vertical with an average of nearly 12 inches of solid ore, and carbonates scattered through the ledge up to 14 feet in width. One hundred and thirty tons of ore shipped gave 175 ounces of silver per ton and 75 per cent. of lead. The last mine visited was the Slocan Star, located on Sandon creek. Croppings in the creek led to its discovery in October, 1891. Extensive development has been carried out and the vein has been exposed to a depth of 450 feet; at some points the vein is 50 feet wide, 8 feet of which has simply to be broken, sacked and shipped. Three thousand four hundred tons of ore have been shipped from this mine, and averaged 100 ounces of silver per ton and 70 per cent. lead. There remain about 20,000 tons of concentrating ore on the dump. In connection with this mine a concentrating mill is being erected, also a gravity tramway for transporting the ore from the mine to the mill. The Nakusp & Slocan railway affords several mines in this division the advantage of competitive rates with its rival, the Kaslo & Slocan. Twenty-eight mines have already shipped ore and in nearly every case arrangements are being made to continue shipping on a larger scale; as there is much development work progressing at numerous claims, the outlook of the Slocan division is very promising.

At Three Forks, a mining town of very recent origin, there is a concentrating mill in operation; another concentrator is to be erected immediately at the Washington mine.

Quite apart from the industry of mining proper, West Kootenay offers an excellent field for the investment of capital in concentrators and smelters, the necessity for which is an inevitable consequence of mining development. It cannot be very long before the need of refineries will have to be met.

The trade of the district is already large and rapidly increasing. Through the courtesy of the Canadian Pacific Railway Company, Mr. William Brown, assistant general freight agent, accompanied the party, and we understand will recommend, as occasion may require, the adoption of more advantageous freight rates between Kootenay and other parts of the province.

The route taken by the party lay through magnificent scenery, that on the Columbia river being especially grand. Few of the inconveniences so often met in travelling through a country were experienced and in this respect the tour was particularly enjoyable. The streams afford excellent fly fishing, and trolling on the lakes can be engaged in with equal success; big game, such as cariboo, bear, sheep and goats are to be obtained on the mountains. Indeed the facilities for sport and travel are so great that they have only to become known to attract considerable tourist traffic.

Even if no new discoveries were made it would not be too much to say that the future of West Kootenay is assured. It should, however, be borne in mind that but a very small portion of its area has so far received attention at the hands of prospectors. Scarcely a week passes without news being received of fresh finds, all of a nature to encourage and strengthen the belief that so far the merest fraction of the wealth of the country has been ascertained. Within the limited time and space at our disposal for the compilation of the foregoing report it was impossible to do more than refer briefly to the wonderful resources of the district visited, but we have endeavored above all things to obtain and lay before you information which may be relied on. This we believe we have accomplished, and would merely add in conclusion, each member of the party is personally satisfied with the result of his trip as confirmatory of the existence of the unlimited wealth of West Kootenay.

D. R. KER, President;
GUS. LEISER, Vice-President.
F. ELWORTHY, Secretary.

Victoria, B. C., Sept. 21, 1895.

OUR WALKING HAT

is a winner. It's made the record of the season in the race for popularity. It's heads we win, and on a show of heads we win by a large majority. It's our hats everywhere for style, quality and value. The hat caps the climax of elegance and correctness in attire. It makes or mars everything. One of our superb examples of up-to-date headwear will make any attire just what it should be. Such hats as we show afford no ground for criticism, neither do our prices. To look prosperous and well dressed get a new hat.

T. L. BROWNE & CO.

Gents' and Boys' Outfitters,
82 Douglas Street, Victoria, B. C.

A PLUGGED DOLLAR

Is as big around as a good dollar, but it won't pass. Same way with a Plugged Suit. Poor trimmings, poor workmanship, and antiquated styles give the suit and its wearer away every time and won't pass with well dressed gentlemen.

We don't make any of that kind here.

WE DO make proper Clothing at Popular Prices.

Our aim has always been—not to turn out cheap, sloppy garments blown together by unskilled labor—but to honestly build up the Best Garments in British Columbia for the least money. Nuff sed.

JOHN McCALLUM,
THE FASHIONABLE TAILOR,
Next to Times Building, 28 1-2 Broad St.

SAANICH SHOW.

Brought to a Close Last Evening by a Grand Ball.

A grand ball last evening brought the twenty-seventh annual exhibition of the North and South Saanich Agricultural Society to a close. There was a good attendance and an enjoyable evening was spent. Music was supplied by the Bantly family orchestra.

During the afternoon there were bicycle and horse races. The former was won by Henry Downing and Richard Jones second. The trotting race for two year olds was won by Rendall's Frank Dwyer, Conlin's Parnell second. D. Simpson's McGinty won the pony race, and Warrimoo won the free-for-all, with Dean's Tommy Dee second. The prizes for the bicycle race were $10 and $5; pony races, a saddle, and other races $20 and $10. Jos. Brown, Geo. Macrae and John Mitchell were the judges.

The following special prizes were awarded yesterday:

Bridle, given by W. Duncan for buggy horse, W. Heal.

Spray pump, given by Sidney Shore for brood mare, F. Turgoose.

Plow given by E. G. Prior & Co. for general purpose team, W. Thompson.

Weekly Colonist, for Chevalier barley, J. T. Harrison.

Weekly Times, for best variety of apples, S. Sandover.

Barrel of flower, given by R. P. Rithet for bread, Mrs. H. Simpson.

Daisy churn, given by Tye & Co. for fresh butter, Mrs. J. T. Harrison.

Bronze lamp, given by R. A. Brown & Co. for patchwork quilte, Mrs. T. W. Carter.

Dozen fruit trees given by R. Layrita for commercial apples, S. Sandover.

Boy's saddle, given by F. Norris for boys' pony race, D. Simpson.

Among the special prizes donated to the society was a good plow from Messrs. Nicholles & Renouf, Ltd.

Weak and Nervous

Describes the condition of thousands of people at this season. They have no appetite, cannot sleep, and complain of the prostrating effect of warmer weather. This condition may be remedied by Hood's Sarsaparilla, which creates an appetite and tones up all the organs. It gives good health by making the blood pure.

HOODS PILLS are the best after-dinner pills, assist digestion, cure headache.

—After dinner use Adams' Tutti Frutti. It aids and strengthens digestion. Look out for fraudulent imitations.

—The officers and delegates, who attended the meeting of the Grand Lodge, I. O. G. T., at New Westminster, returned home last evening.

THE TURNING POINT

TO HOME COMFORT AND SUCCESS IS GAINED BY THE USE OF

DIAMOND DYES.

These wonderful Dyes save thousands of dollars annually to happy homes in Canada.

At this season, old, faded and bodice dresses, capes, jackets, and mens and boys' suits can be re-dyed, and made to look as well as new, at a cost of ten cents.

Diamond Dyes are the easiest to use; they are the brightest, strongest and most durable. Ask for the "Diamond"; refuse all others.

The Daily Times.

A VARIETY OF TREATMENT.

Mr. Girouard was appointed to the supreme court bench immediately after the resignation of Mr. Justice Fournier, the promptness in this case being in strange contrast with the delay in selecting new chief justices for Quebec and New Brunswick. The explanation seems to be that Jacques Cartier, the county represented by Mr. Girouard is looked upon as absolutely safe for the government, while in the other cases an appointment might mean the opening of an unsafe district. It will be interesting to note whether the Jacques Cartier bye-election is brought on forthwith while that in West Huron is longer delayed. The latter riding gave Mr. Patterson a very small majority, and the government seem reluctant to try a new contest lest they suffer defeat. Westmoreland was left unrepresented only a few days, but there was in that case a majority of over 2100 to give the Ottawa managers confidence. In Great Britain the two ridings would have been treated exactly alike, irrespective of the majority; the bye-elections would have been held as a matter of course immediately on the vacancy occurring. The Conservative ministers occasionally find British precedents awkward, though they are not slow to quote British precedents when these suit their purpose. As to Mr. Girouard's appointment there is no fault to be found. All are agreed that he is a good man for the place, and it is pleasant to be able to commend the government for one good action.

THE EXPENSE SIDE.

Much has been said of the big crop of wheat garnered this season by the farmers of Manitoba and the Northwest, but the expense side of the account has not received any large amount of consideration. If the millions of bushels of golden grain were to drop into the husbandmen's granaries without labor, worry or expense on their part the world might look on with envy at their good fortune. Good fortune they have, at least so far as the harvest goes, but there was first much labor to be put forth and a large risk in actual expenditure to be incurred. Bearing on this side of the farmer's account some interesting figures are given by the Winnipeg Commercial. The area under crop, it finds, was 1,862,296 acres, and at the moderate estimate of three pounds per acre the binding twine required was 5,586,888 pounds. The cost of this at the average of 8 cents was $446,951. Then there is the cost of hired help in harvesting the crop. Of this the Commercial says: "Nothing like a satisfactory estimate can be made of the amount paid in wages to save the present crop in Manitoba. One estimate made in the official crop bulletin, said that 6000 extra men were required to harvest the crop. Allowing that these men cost on an average $30 per month, including the cost of their keep, and that they are employed for three months, we would have the sum of $540,000 paid in wages during the present season for extra help alone, and not counting the ordinary help required by the farmers. This sum, we think, is a moderate estimate of extra help to the farmers of Manitoba." Threshing the grain, 60,000,000 bushels, at 3½ cents per bushel, makes up another outlay of $2,100,000; but in some cases the charge was only from 2 to 3 cents per bushel and the total mentioned may be a little too large. For agricultural implements the Commercial thinks a fair charge would be $250,000 as against this particular harvest. These sums make up quite a heavy outlay for one harvest, but they are not all that are charged against the season's product. The Commercial observes:

"All these items are for the harvest alone, and do not take into account cost of seed, tillage of the soil and all the various expenses the year around which go to produce the harvest, and which only culminate with the marketing of the crop. And then, as the farmer draws in the sheckles, he will find his creditors following him up closely, on the lookout for their share of the proceeds."

All of which goes to show that the life of the Manitoba farmer is far from being entirely rosy, even when his crop is a good one. Then the tariff plays its part in keeping him humble. Of all the binder twine used, over 2,100,000 pounds were imported from the United States, and this had to pay the duty of 12½ per cent. A large percentage of the agricultural implements bought were of American manufacture, and these were taxed 20 per cent., while on those bought in Eastern Canada a manufacturer's margin of nearly equal amount must be allowed for. At the same time the N. P. puts nothing in the Manitoba farmer's pocket; his wheat is away down in price and the tariff does nothing to lift it up. No wonder he has grown decidedly weary of the policy which taxes him heavily and gives him no recompense. The Commercial in conclusion moralizes as follows:

"When we think that all this vast expenditure, a few of the items of which we have enumerated above, is made by the handful of farmers of Manitoba, numbering, all told, less than 25,000, the thing seems amazing. Truly it is the farmer who has to be relied upon to make things hum after all. Agriculture is surely our greatest industry, upon which all others are dependent. We can prate about national policies to build up manufactures, but our great national policy should be to guard and encourage our magnificent agricultural industry, and all other things will come with the prosperity of this greatest of all interests."

ALL PULL TOGETHER.

The collecting committee of the New Westminster celebration in connection with the exhibition, has received up to the present time over $2000, and the work is not yet completed. Contributions have been made by the citizens of sums of from $225 to $1. The response is certainly a generous one, and indicates that, nothwithstanding the "hard times," the public spirit of Westminster is still alive and active. If on other questions the Royal City is sometimes divided it is a unit on the exhibition. The people pull together and subscribe according to their means to make the show a success, financially and otherwise, and they succeed in doing so. They cast their bread upon the waters freely and it returns to them before the week is over. That is the only way that we know of by which agricultural and industrial exhibitions can be made financially successful in British Columbia. Victoria could subscribe five dollars to Westminster's one, but she does not do so. Our citizens—or at least enough of them for the purpose—have the money, but they are deficient in faith; while those who have faith have worked earnestly with only a measureable success. The directors of the Victoria association must devise some plan to convince the people that they have a personal interest in the exhibition and that to some extent it is their duty to contribute annually to its maintenance. Without general contributions, or small annual fees from a large membership, the probability is that an adverse balance will continue to appear on the books of the treasurer forever, if the faith of the few is equal to the task of maintaining the exhibition for that somewhat indefinite period.

THAT "INDIAN WAR."

The Atrocious Acts of Wyoming Officers of the Law.

The federal investigation of the Jackson's Hole affair seems to have resulted in the inevitable conclusion that the whole thing was instigated and brought to a crisis by civil officers of Wyoming. If this is the case, and there seems no longer room for doubt, nothing more cold-blooded or abominable has been perpetrated in this country for many years. The men who engaged in the murderous undertaking acted without any provocation save that of selfish greed or hatred of the hopeless Indians. The leader in the affair was a constable of Wyoming, who, with several of his deputies, determined to rid their state of the Indians, and to that end attempted to get up the semblance of an uprising. They took the game laws as a subject of attack, and, declaring that these men had violated them, a statement afterwards proven to be false, arrested them and started with them on horseback, pretending that they were to be taken to the nearest town for trial and punishment. On the way they attempted to incite the prisoners to escape, and, whether they succeeded or not, they carried out their original purpose, of shooting most of them. The prisoners were on horseback, and the natural and justifiable action on the part of the officers in case of an attempt to escape, back, and his dead body left on the would have been to shoot the horses. Not one horse was shot, however. One old man who was almost blind and totally helpless, was shot four times in the plains. A younger man was disabled and left to die without attendance of any kind. Then the report was spread right and left that the Indians had handed together for an uprising, and popular alarm and hatred was aroused.

It is almost incredible that this thing could have transpired to-day and in this country. In kind, if not in degree, the outrage equalled any ever committed by the Indians themselves in the days when they terrorized the whole West. The thought that the deed was committed by the officials of any state in the Union is enough to make the stoutest American heart sink with shame. And the knowledge that the federal government may not punish the murderers, but that, if tried at all, they must be taken before a judge who is in sympathy and counsel with them, is exasperating to the last degree. We can only hope that there are not many communities in the Union in which such a deed could go unpunished, but as long as one exists, it will be profitable for us to turn our attention to the possible guarding against the recurrence of such an outrage, by some special provision for their punishment, and in the meantime the contemplation of it may somewhat distract our attention from Chinese and Armenian horrors.—St. Paul Pioneer Press.

IN THE CITY CHURCHES.

Harvest Home Services to be Held Morning and Evening at St. Johns'.

When and Where Victorians Will Attend Divine Worspip To-Morrow.

Emmanuel Baptist church—Services at 11 a.m. and 7 p.m. Mr. William Marchant will preach in the morning and the pastor in the evening. Evening subject—"What We Should Preach." Sunday school and Pastor's Bible class at 2:30 p.m. Communion at close of evening service.

LOCAL NEWS.

Gleanings of City and Provincial News in a Condensed Form.

—The Cowichan-Alberni election is taking place to-day.

—Triumph Lodge, No. 4, Degree of Honor, A. O. U. W., will hold a grand Hallowe'en masquerade ball, on Friday evening 27th inst., at the A. O. U. W. hall. This is the first of the season.

—The Primrose Committee will give one of their social entertainments, with dance, on Friday evenig next. A pleasing programme is being prepared, and Richardson's orchestra will furnish the music.

—At the regular meeting of Trinity council, Royal Arcanum, held in Sir William Wallace Hall, Thursday evening, quite a number of new members were initiated and given the beautiful secret work of the order.

—A dispatch received from Otter Point this afternoon says: "The sealing schooner Annie E. Paint is off here. She has run clean out of provisions and has a catch of 2020 skins, 700 of which were taken in Behring sea."

—The Juvenile Opera Company will meet for rehearsal of Olivette in A. O. U. W. hall on Thursday afternoon, from 4 to 6, when all members and any children wishing to join are requested to be present, as no new members can be taken later on.

—The Sons and Daughters of St. George will give a grand entertainment and dance in A. O. U. W. hall on Tuesday evening, the 15th. A. W. Gibbs will exhibit a fine collection of views of California. The Bantley orchestra has been engaged to furnish the music.

—Stephen Munson, the miner, who was brought down from the north on the steamer Danube, was sentenced to three months' imprisonment by A. E. Bolton, J.P., for having attempted to strike his wife with an axe. In the meantime he will be examined as to his sanity.

—The programme for this evening's popular concert at the Y. M. C. A. rooms is as follow: Violin solo, Mr. Noel H. Barker; vocal solo, Mr. A. Wheeler; recitation, Miss Strachan; vocal solo, Mrs. Clyde; recitation, Mr. J. Irwin; vocal solo, Miss May Wolfe; piano and mouth organ, Miss and Master Haughton; five part dialogue entitled "Mr. Jonas Jones."

—Miss Frank's lecture on "Heart Throbs of Israel," promises to be well patronized. The opportunity for listening to Jewish interpretation of the Scriptures have been rare in this city. In her line of thought Miss Frank is fearlessly independent and original. She speaks as she thinks, her sentences are free from any semblance of pedantry, and her every word conveys the impression of lofty purpose.

—Triumph Lodge, No. 4, Degree of Honor, is taking the lead with social dances. The dance held on the 27th of last month was a decided success, and demonstrates most clearly that in the management of these affairs the ladies are thoroughly at home. Mrs. E. Hood took a prominent part in the arrangements. On Friday the 25th inst., the lodge will hold a grand masquerade ball, at the A. O. U. W. hall, Yates street.

—Dr. G. L. Mackay, is in the city and will be a passenger by the next outgoing Empress for Formosa, where he will continue his missionary work. He is a Canadian by birth and first went to Formosa in 1872, remaining there until two years ago. His family and a young Formosan student are returning with him. The Presbyterian General Assembly last year elected him their moderator as a mark of appreciation of his work.

—The steamer Umatilla did not arrive from San Francisco until 8 o'clock having been delayed by head winds. She had on board 86 pasengers, 23 of which were for Victoria. She brought 105 tons of freight for this port. The Walla Walla sails this evening for the south. The cabin passengers booked from Victoria are: Mr. and Mrs. Weyman, H. Barrett, B. Faverner, A. Ellis, Mrs. J. Ford, Mrs. A. Magneson, F. Murray and wife and Mr. Matthews.

—At the next regular meeting of Peerless lodge, I. O. O. F., there will be initiation and degree work, together with other important work.

—As an illustration of how the Game Protection Act does not protect, an Italian pot hunter was offering 30 brace of quail at some of the city hotels yesterday.

—St. John's church has been very prettily decorated for the Harvest Festival services to be celebrated to-morrow morning and evening. Special music will be rendered by the full choir.

—James Deans read a very interesting paper on "The Totems of British Columbia" at the meeting of the Sir William Wallace Society last evening. It was greatly enjoyed by all. Mr. Bale, of Glasgow, gave "Tam O'Shanter" in capital style, and Rev. Foster a short address.

—Reuben Young, caught sleeping in a stable on Vancouver street and arrested for vagrancy, was in police court this morning. The case was remanded and it is improbable that there will be any prosecution. Fred Wilson and Harry Mileson, two hard citizens, given a chance to get away by a week's remand, failed to appear to-day, and it is believed they have left for good.

—Mrs. Annie B. Elliott, wife of John Elliott, died yesterday at her home, 37 Hayward avenue, of bronchitis. The deceased was an old resident of the city, a native of Ireland and 65 years of age. Her husband, three daughters and two sons survive her. The funeral will take place Monday morning from the house at 9:30 o'clock and from St. Andrew's R. C. Cathedral at 11 o'clock.

—Since the last list was published, the following subscriptions have been received for the Sunday band concerts: S. Perry Mills, W. W. Northcott and A. H. Scaife, $1 each, cash 50c., Dixi H. Ross, weekly subscription, 50c. The total amount collected was $133.75, which was expended as follows: Concerts Aug. 18, Sept. 1, and Sept. 8, $35 each, and Sept. 15, $28.75. It is not likely that there will be any more concerts this season.

—The Local Council of Women of Victoria and Vancouver Island will hold their regular monthly meeting on Monday next, 7th instant, in the City Hall at 2:30. The meeting is called a week earlier owing to the near approach of the annual meeting, at which Her Excellency the Countess of Aberdeen will preside. As this, next to the annual meeting, is the most important one of the year, presidents and representatives of all federated societies are urged to be present.

—The A. O. U. W. hall, which has recently been fitted for dramatic performances, was reopened last evening by the Victoria Dramatic club, which presented Hazel Kirk. The performance was in every way a creditable one, the stage setting being also particularly good. Most of those taking part have appeared before Victoria audiences previously and last evening they fully sustained their reputation as splendid amateur performers. The cast was as follows: Dunstan Kirk, C. W. Rhodes; Arthur Carringford, Frank LeRoy; Squire Rodney, Jas. Penketh; Barney O'Flynn, George Barr; Pittacus Green, Will Chapman; Mercy Kirk, Mrs. M. Newman; Dolly Dutton, Dollie Draut; Lady Carringford, Rose Melton; Hazel Kirk, Mrs. Will Chapman. The performance will be repeated this evening.

—During the past few months British Columbia has been visited by a number of lumbermen from the states and eastern provinces, the object of each party being the same. The timber limits in the states, from which they come, are beginning to show signs of giving out, and they are looking for new limits along the Pacific coast. Already a number have obtained limits in British Columbia which they expect to use during the next few years. At present an Ontario party is visiting Cowichan, looking over limits which they obtained some time ago, and there are two other gentlemen here on a similar mission. They are J. M. Barr, of Ann Arbor, Michigan, who is connected with the lumber firm of Sibley, Berringer & Company, of Saginaw, and S. B. Hill, of Duluth, Minn. They are already interested in British Columbia timber lands, but are looking for further investments. Some time was spent by them on the Mainland and they will now make a tour of the Island.

CRUSHED BY A CAR.

Bluejacket Blackman Falls in Front of one and is Killed.

A bluejacket named Blackman, of H. M. S. Royal Arthur, was run over and killed by car No. 7, in charge of Conductor Frank Peat and Motorman James on Esquimalt road at 7:15 o'clock last evening. The car was bound eastward and was going down the slight incline near Admiral's road at a rapid pace, about a hundred feet east of the road the motorneer saw a man come out of the woods, stumble and fall face downwards across the track. He made a desperate effort to stop the car, but the space was too short and the wheels passed over the body. Fleet Surgeon Cox was the only passenger in the car and he made a hasty examination of the man. The poor fellow's back was broken and there was no hope for him. He was conveyed to the canteen grounds on the car and from there to the hospital by stretcher, but was dead when carried into the ward. He was readily identified by shipmates. It is supposed that Blackman was asleep in the brush, was aroused by the bell and stumbled out to his death. He had lost his cap before he reached the track.

SOUTH PARK SCHOOL.

Presentation of Colors and Prizes by Trustee Mrs. Grant.

The interesting ceremony of the presentation of colors to the South Park school company yesterday attracted a large number of visitors. The whole school, over four hundred pupils, were drawn up in front of the building in a hollow square. The parading company was then put through a short drill and a few calisthenic exercises by Instructor St. Clair, after which Color-Sergeant Fawcett brought the flag to the front and Trustee Mrs. Grant aatached to it the red, white and blue streamer won by this school at the competitive drill on Children's day at the Fair. The company with caps in hand sang the National Anthem, to the accompaniment of the drum.

In the assembly room this short musical programme was given:—Instrumental duet by Kate Finlaison and Hattie Mackay; song, "Lights far out at Sea," Frances Fraser; song, "You Can't Play in our Yard," Zoe Bucknam; violin solo, Willie Fraser. Miss Lawson told for the benefit of the little people in the front row, the story which never loses its charm for six-year olds, "Little Red Riding Hood," and Trustee Mrs. Grant after complimenting Mr. St Clair upon the efficient and careful work which he is doing in the schools, presented the principal's monthly prizes to the heads of the several divisions as follow: First division, Harriet Mackay; second, Ida Pauline Goddard; third, Kate Emily Redfern; fourth, Lilian Grace Shears; fifth, Annie Sellick sixth, Mabel Agnes Cameron; seventh, Clark Gill; eighth, Chas. George Banner; ninth, Katie Miller. A prize was awarded to Gladys Maud Cameron, the winner of the spelling match. Prizes for drawing earned but not presented last year were awarded to May Franklin and Katie Finlaison. Diplomas won at the fair were presented as follow: Writing, Harriet Mackay; book-keeping, Mary Baldwin Franklin; composition, Ema Lister Casad, and map drawing, Edith Howard Bamford.

PASSENGERS.

Per steamer Charmer from Vancouver—J M Barr, Mrs F S Barnard, Duncan Rowan, V Mitchell, Wm Marchant, Wm Collister, B R Seabrook, W H Wild, Capt Hamilton, A E McPhillips, E Brenmner, Mrs Hall, Miss Isbester, Dr L Hall, Mrs Newbigging, T C Moody, Miss Scott, D McDonald, W L Glichrish, F James, J Stuart, F Phillips, T Corbett, C Hezel, R Keye, R L Ker, Rev J Calvert, M D Roche, W G Barrington, H J Brady, T H Carey, R McComb, G Kirkendale, Col Leach.

IN LAVA LANDS.

Notes of the Excursion to Hawaii, by Miss Cameron.

THE NIGHT-BLOOMING CEREUS TRIP TO TANTALUS.

Returning to the hotel we found that a small parcel had been left for us. Opening it, we discovered a fine papaia fruit and the card of Editor Logan. his papaia tree grows to the height of twenty or thirty feet, its soft indented stem culminates in a bunch of huge leaves on long stalks and considerably below these is the fruit in various stages of growth. A ripe papaia fruit looks very much like a bright yellow cantaloupe, and tastes, well—candidly we can't praise it, we didn't become educated to the pitch of enjoying either papaias, guavas or mangoes. Nor did we cultivate a taste for poi. Poi, the national dish, is prepared from the root of the taro plant (arum esculentum). The taro is grown in lois or patches, in hills like potatoes, but in water, and requires a whole year to mature; it is a very handsome tropical plant with large leaves, like a calla lily, of bright tender green. The taro is, with the Hawaiian, an object of tender solicitude from the hour it is planted until it graces the family board. The root is ovate, like an irregular beet, and after being dug, is baked in an underground oven and then with a stone hammer pounded into a moist paste. This sticky mass is thinned out with water and put away in a calabash to ferment. The taro is a prolific plant, an acre will provide sufficient food for an ordinary family, with proper care.

But a grander sight than papaia trees or taro patches is ours to-day. A friend drove us to see the night-blooming Cereus.

Lo! and what is this?
Is this a banquet for the gods outspread
Upon the lichen-covered wall? There lies
The knotted creeping cactus, loosely flung
Upon the lava stones. Upon it stand
A thousand glistening goblets, flared at brim
And turning toward the moon. The cups of white
Are set on scaly necks of greenish grey;
And trembling in their gleaming lip-curved bowls
Is—scented gold?—nay; amber wine?
No—no—
'Tis rather moonlight trapped—or odor seen.

Going close to this wondrous plant we see that its owner has a lasting memorial of the visitors who from the world's four quarters have come to gaze upon this matchless stretch of beauty. On the fleshy leaves of the cactus are deeply indented autographs and among them not a few of the names that the world calls great.

On our way home we saw a century plant in bloom. That night we retired early, for our Honolulu friends had planned a long day's outing for the morrow, and so far sight-seeing had proved very tiring work—we had so much to see and such a little time to see it all in.

Next morning we were early astir and there was a great demand for thick shoes and "Miowera dresses," for we were to climb Tantalus. Tantalus, be it known, is a mountain, the highest on the Honolulu side of the Island of Oahu, and we were promised a magnificent view if we had endurance enough to reach the summit. We started out, a party of thirteen, each of the eight of our original Victoria party mentally resolving to reach the top or die, for our entertainers had cast some slight doubt on the walking abilities of Britishers, and was not our national reputation at stake? It was a glorious morning as we wound around the foot of the Punchbowl and passed through the village of the Portuguese. Each half mile of our ascent gave us a wider landscape, and in watching the widening circle of cane fields and sugar mills, of taro-patches and rice-rows we almost forgot that the sun was growing warmer and the climb much steeper. A white patch far below was pointed out to us as "the Salt Lake," and we were told that it is a natural wonder with very puzzling peculiarities. It has neither inlet nor outlet and yet its waters regularly respond to the rise and fall of the ocean. On the other side, nestling among trees and hardly discernible, we saw the Lunalito Home for aged and impecunious Hawaiians. A Kanaka seems to be be never too ill or too old to contemplate matrimony. On Molokai they marry when in the most advanced stages of leprosy, and we now learned that a festive bridegroom of 80 had recently in this far away Old Folks' Home, plighted his troth to a lively little helpmeet of 83. But our course was still upward, and neither novel views nor entertaining anecdotes could make us forget that we were heated and out of breath, and that the top of the mountain was still far, far off. It was to be to us a day of surprises. From a turn in the road approached two friends of the party, and they led (O, glad sight!) two horses and a mule. It needed but little persuasion to induce three of us to mount those thrice-welcome beasts without more ado: the saddles were Mexican and, yes, we rode, in the pleasing euphuism of Honolulu, "cavalier-fashion." Since our return home we have read in an exchange that "Susan B. Anthony has brought from the west a photo of herself riding a mule." We know what it looks like. We have one. It was taken from a point directly in front of the cavalcade. The mule's ears and the rider's feet are very much in evidence and the noble animal then dwindles away in fine perspective like the comical pictures in political cartoons of "Lord Tommoddy, all head and no body." But for that mule we have all respect, we entertain for him a feeling bordering on reverence—he carried us up hill and down dale with a step firm and sure, and as his feet were by far his best feature we called him Trilby and enshrined him in the very innermost corners of our heart's best memories.

FROM THE NORTH.

Arrival of the Danube With a Big Cargo of Salmon.

Steamer Danube returned last night from the north, bringing a large cargo consisting of 19,091 cases of salmon, 5304 cases of empty tins and 64 drums and barrels of oil from the Skidegate works. The salmon cargo was made up as follows: 3,728 cases from the Balmoral Canning Co.; 4000 from the Inverness; 3,263 from the Victoria Packing Co.; 6000 from the River's Inlet Canning Co.; 568 from the Alert Bay Canning Co.; 100 from the Good Hope Canning Co., and 532 by the North Pacific Packing Co.

It was reported among the Indians at Fort Simpson, that a small ship had been wrecked off Cape Fox. Her name was not known. The members of the American survey party were at Fort Simpson waiting for the Patterson to bring them south. They have completed their work.

Among the passengers were Dr. Newcombe and sons, C. E. Walker, and Mr. Bowker, who have been exploring Graham Island; Mr. Mitchell, who has been looking for the Lukey ledge, without success; W. A. Robertson, who has been prospecting and looking after his coal lands on Queen Charlotte Islands, and James King, the timber cruiser, who has located timber limits and agricultural lands on Graham Island. Explorer Poudrier, who was locating land on Queen Charlotte Islands for a private syndicate, is now at Poacher Island, doing similar work.

Constable Schorschmidt came down with Steve Munson, the well known miner, who has been acting queerly of late. He made several attempts to kill his wife and it was thought advisable to send him to Victoria for treatment.

Other passengers were: P. Brynildson, the storekeeper at Bella Coola, who is down for supplies, and Messrs. Carthew, Robinson, Butterman and Cunningham, the canners.

THEY WANT A CHANGE.

A Victorian's Impression of the Political Situation.

W. A. Dier, a knight of the grip, who represents M. Fisher, Sons & Co., of Montreal, has just returned from a trip through the Northwest. He says that one has no conception of the extent of the feeling against the Dominion government which exists in Manitoba and the Northwest Territories. Everywhere he went the people were of but one opinion: "Turn the rascals out." In Winnipeg, particularly, Mr. Dier was impressed with the determination of the people to have a change. Said he: "In Winnipeg, the feeling of discontent with the treatment accorded the people of the Prairie province by the present party in power is in the very air. For one to drop down in Winnipeg after noting the apparent apathy of the people in the coast cities is a revelation. They are in open rebellion against Mackenzie Bowell and his followers, and few men can be found who will predict that the Conservative party have a ghost of a show at the approaching election. And I found the same feeling existing everywhere, in the hotels, on trains and steamers—people were unanimous in saying: 'We want a change, and we're going to have it.'"

How to Get "Sunlight" Books.

Send 12 "Sunlight" Soap wrappers to Lever Bros., Ltd., 23 Scott St., Toronto, who will send post-paid a paper-bound book, 100 pages. For 6 "Lifebuoy" Carbolic Soap wrappers, a similar book will be sent. This is a special opportunity to obtain good reading. Send your name and address written carefully. Remember "Sunlight" sells at six cents per twin-bar, and "Lifebuoy" at 10 cents. One cent postage will bring your wrappers by leaving the ends open.

—To be free from indigestion, cheerful and hearty, use Adams' Tutti Frutti. Decline to take imitations.

HARD TIMES FOR TACOMA.

Miss Vanmarter to Marry a Lord—Corporation in Difficulties.

Tacoma, Oct. 5.—The engagement is announced of Lord Bennett, son of the Earl of Tangerville, and Miss Leonora Vanmarter, daughter of Dr. and Mrs. Vanmarter, of this city. Lord Bennett arrived Monday and is quartered at the Union Club. The wedding will be very quiet, and will probably take place about the latter part of October.

Seattle, Oct. 5.—The Oregon Improvement Company has gone into the hands of a receiver in Judge Hanford's court. C. J. Smith, who has been general manager of the company, has been appointed receiver. The property of the company consists of the Pacific Coast S. S. Co., having a fleet of 21 steamers, the the Columbia and Puget Sound, Seattle and Northern, and Port Townsend Southern railroads, and the Newcastle and Franklin coal mines. Prest. Elijah Smith is at present in New York. An application for the appointment of a receiver will also be made in Portland to-day, and it is expected that Receiver Smith will leave for there by special train.

NO OTHER LIKE IT IN THE WORLD.

THE KIND PEOPLE MUST HAVE TO GET WELL.

Paine's Celery Compound Recommended and Approved of by Hundreds of Physicians.

There is no other medicine in the world like Paine's Celery Compound as far as virtue, efficacy, merit and sterling honesty are concerned. There are scores of medicines made simply to sell; Paine's Celery Compound is put before the public with a nobler and grander object; it is prepared for the purpose of healing and curing.

Men and women in all parts of Canada have not hesitated in making public declaration that Paine's Celery Compound is the only medicines that CURES. Sufferers from dyspepsia, indigestion, kidney and liver troubles, nervous debility, rheumatism, neuralgia and heart disease have given the strongest and best of testimony. All agree that Paine's Celery Compound can overcome the most obstinate cases of disease.

Mr. Joseph Garrettson, Grenville Co., Ont., writes as follows:

"I was laid up for months, and could not work, eat or sleep. Day after day I was getting weaker, when a friend advised me to take Paine's Celery Compound. I did give the medicine a trial, and before the first bottle was finished I experienced a great change. I can now eat, sleep and work as well as any ordinary man, and I can truly say that Paine's Celery Compound is a wonderful medicine, and worthy of all the praise that people can give it. I advise all to use it for dyspepsia and as a purifier of the blood; it surely cures."

CATCHING AT STRAWS.

Durrant's Defenders Now at the Limit of Their Evidence.

San Francisco, Oct. 5.—If the manner in which the attorneys for the defence in the trial of Theodore Durrant are handling their case is any indication of the strength of their position, the prosecution believes the developments of to-day leave little doubt of the prisoner's conviction. To the surprise of everybody, the defence this afternoon began the calling of witnesses to show the previous good character of the young Sunday school superintendent. By the prosecution, this step is interpreted to mean the defence has introduced all of the evidence that it has to refute the testimony piled up by the people. If this be true, the verdict of the jury is a foregone conclusion. Not only has the defence failed to establish an alibi for Durrant, but it has actually stengthened the case against the prisoner. The court has adjourned till Tuesday.

—Many merchants are well aware that their customers are their best friends and take pleasure in supplying them with the best goods obtainable. As an instance we mention Perry & Cameron, prominent druggists of Flushing Michigan. They say: "We have no hesitation in recommending Chamberlain's Cough Remedy to our customers, as it is the best cough medicine we have ever sold, and always gives satisfaction." For sale at 75 cents per bottle by all druggists. Langley & Co. wholesale agents, Victoria and Vancouver.

—John Green was charged in the provincial police court this morning on the information of Capt. John Irving, with having been drunk and disorderly on the stamer Princess Louise, while that vessel was on her way from Port Angeles. He was fined $10 and costs.

A DRIVER'S CARELESSNESS.

Causes Serious, Perhaps Fatal, Injury on a Tacoma Electric Car.

Tacoma, Wash., Oct. 5.—A frightful head-end collision between two electric cars occurred on the line of Puyallup, near the southern limit of this city, this morning during a dense fog. Both cars were crowded to their utmost limit and running very rapidly. A dozen people were badly injured, two fatally. John Turner and H. Bailey, who were riding on the platform, wer jammed between the cars. The former had both legs broken, and both men were injured internally. Eddie Lemagie, six years old, was badly crushed. Fred Foy, motorman, was injured internally. The accident was due to carelessness in running too fast in a fog.

HELP CAME JUST IN TIME.

A Wrecked Crew Rescued at the Last Moment in Lake Ontario.

Toronto, Oct. 5.—Schooner Clara Youll, which arrived in port to-day, picked up the crew of the coal schooner Dauntless off Thirty Mile Point, at three o'clock this morning. The Dauntless was bound for Hamilton with coal, and left Charlotte early yesterday morning. Toward six o'clock in the afternoon the schooner sprang a leak. The sea was not high, so the pumps were rigged up and it was thought the boat could be kept afloat until they reached the nearest port. At two o'clock the schooner began to settle. The crew, consisting of five men, took to the small boats, and soon after the schooner sank. The small boat was almost swamped by heavy sea when the Youll came up.

—When you buy the famous BEAVER chewing tobacco, be sure the word Beaver is on each plug. There are cheap imitations.

THE ARMENIAN AGGRESSION.

Monday and Tuesday's Riots are Still Matter for Discussion.

Constantinople, Oct. 5.—After a conference of the ambassadors to-day, energetic representations were made to the Turkish foreign minister complaining of the excesses committed as much by the police as by the Musselman populace on the prisoners and wounded, on Monday and Tuesday, many of whom were despatched with bludgeons, while others were most cruelly maltreated.

The representatives of the powers begged the foreign minister to take measures to prevent the foreign residents of Constantinople from suffering and to restore order. The United States minister, Mr. Alexander Terrill, also made representations to the Turkish government requesting that steps be taken to ensure the safety of the United States missionaries in the Koumkapon quarter. Messrs. Chirton and Hunter, the newly appointed United States consuls, started for Erzeroum and Harpoo, respectively, to-day. The British consul at Trebizonde has been instructed to grant them every facility and protection in the acomplishment of their journey, and in establishing themselves at their posts. The Turkish quarters are guarded throughout the night in order to prevent the Musselman inhabitants from coming out and renewing the disturbance. The city is now tranquil although it is still patrolled by troops and police, and there is yet much apprehension among the Armenians. The Softas were especially guilty of great excesses on Tuesday, especially during the raid on the Armenian quarter, which they made at night. At Tookurtchesme, near Stamboul, the students and populace broke into an Armenian building, killing 15 persons and wounding 25 others. In addition, it is said, they immediately conveyed the bodies to the shore and threw them into the sea.

There was another fierce fight in the Armenian cafe at Scutar, during which several persons were killed and wounded on both sides. At Hanskein, a number of Armenian houses were broken into and ransacked by the softas, the Armenian college at Galata has been closed. At the invitation of the Armenian notabilities, acting at the request of the Turkish government, some of the Armenians who had sought refuge in the Koumkapon cathedral have returned to their homes, but the majority refused to leave the sacred edifice out of fear of being arrested and maltreated by the Turks. The arrest of Amenians continue to be made in all parts of the city and the police are making domiciliary visits wherever the Armenians live and are searching all the Armenian stores. There were further troubles yesterday at Toppane, during which about 40 persons were wounded.

London, Oct. 5.—Foreign office officials have expressed the opinion that the disturbance at Constantinople will seriously embarrass the powers in their efforts to bring about reform in Armenia. They hold that a heavy responsibility rests upon Armenians for precipitating the riots at Constantinople, and the opinion is gaining ground that the recent events there have caused a revulsion of feeling throughout Europe, and those who are urging their government to take immediate steps to protect the Armenians from oppression begin to see distinctly that there is another side to the question.

A Word to Drummers.

The commercial traveller naturally dreads the cold weather, if he has to do much driving to and from country stations where the raw, damp winds seem to penetrate his whole body. Fibre Chamois is a simple and economical remedy for all this discomfort which not only travelers, but motormen, conductors, and other outdoor workers may use with profit. It is a perfect protection from wind and cold, as the fiercest blast can't possibly go through it, and yet it will add no weight to a coat or vest. It gives the necessary body and stiffness, thus taking the place of canvas or haircloth, and at the same time furnishes this splendid warmth.

A RELIC OF KING LEAR.

Ruins of a Temple of Janus Which the Old Monarch Built.

It may be interesting to old Shakespearean actors to learn that there exists at the present time in the town of Leicester a ruin of a temple dedicated to Janus. This ruin is known as the Jewry Wall, and is in danger of being swept away to make way for the new railway station of the M. S. and L. Company, in connection with their trunk line to London.

The owners of an adjoining factory have included this remarkable ruin in the sale of their property, although the vicar and church wardens of St. Nicholas, who claim the ruin as theirs, have protested. From accounts in my possession it appears that King Lear founded the town or city of Leicester 884 years before the birth of our Saviour, and that he built therein a temple dedicated to Janus, and placed therein a Flamin (a pagan priest). It further appears that King Lear was buried in the temple by his daughter Cordelia; also that another king of the Britons named Archigalls was buried there.

As an action in the matter is pending, I am sure the vicar and the church wardens would be glad of any assistance. Their object is not only to prove their rightful ownership, but to preserve this important and interesting relic intact. Leicester has in the past lost too many historical relics, so that we ought to draw the line somewhere. Not far away stood the inn where Richard III. slept on his way to Bosworth; also the Bow Bridge, over which the King and his army passed. The theatre where Grimaldi performed has disappeared, but the room wherein Shakespeare read his plays remains intact in the shape of the old town hall. Gopsall Hall, too, where Handell spent some time, and where he wrote or prepared his great work, "The Messiah," remains intact. Yours truly, T. Sladen, 17 Cank street, Leicester.

P. S.—Leicester's former name was Learcaster.—London Era.

—If your child is puny, fretful, troubled with glandular swellings, inflamed eyes, or sores on the head, face, or body, a course of Ayer's Sarsaparilla is needed to expel the scrofulous humors from the blood. The sooner you begin to give this medicine the better.

Portland Exposition.

Victoria, B. C., Sept. 20th, 1895.
G. G. Bigger, Esq., Provincial manager Massachusetts Life Association:
Dear Sir: On behalf of myself and children I hereby acknowledge receipt of your check in full payment of claim under policy of insurance on the life of my late husband, William Bryant, insured in your company one year ago. I desire to thank you for the satisfactory manner in which you have settled this claim, and I can heartily recommend anyone desiring to protect his family in a sure and cheap manner to your Association.
I Remain Yours Sincerely,
(Mrs.) Harriet Bryant.

Royal Baking Powder

ABSOLUTELY PURE

TO WIPE THE DISEASE OUT

Board of Health Passes Stringent Rules to Check Scarlet Fever.

Five Thousand Copies of the Rules to be Printed and Distributed.

The Board of Health met this morning to take decisive action as to the threatened epidemic of scarlet fever, that it may be checked in its incipiency. Mayor Teague, all of the aldermen except Ald. John Hall, who is absent from the city, and Dr. George Duncan, medical health officer, were present. It was decided to issue the appended rules which were passed, in the form of a bulletin, and the printing committee, consisting of Aldermen Humphrey, Wilson and Bragg, was directed to have 5000 copies of it printed and distributed throughout the city:

Any one ill with scarlet fever or diphtheria should be isolated with a nurse in a room which meets the approval of the medical health officer. The room or rooms should be without carpet or unnecessary furniture, especially upholstered furniture, or clothing. No person except those needed for the care of the sick should enter the sick-room. In cases of scarlet fever, the isolation must continue for a period of six weeks; in cases of diphtheria, until the patient has entirely recovered. During the illness utensils used by the sick should be well cleansed with boiling water before being used by other persons. Food left should be destroyed. All washable bed, or body clothing should be boiled for fifteen minutes after being saturated in a solution of carbolic acid, 1:20, placed just outside the door of the infected room. The discharges from the throat and nose must be received in cups that can be disinfected, or in cloths that are to be burned. Vessels for receiving discharges from the mouth, nose, kidneys, bowels, and vomited matter, should contain a solution of corosive sublimate, 1 to 1000, or carbolic acid 1 to 20. A sheet kept saturated in a solution of carbolic acid, 1 part acid to 20 parts water, should be hung on the inside and another on the outside of the door of the infected room. Do not use metal dishes to hold the corrosive sublimate, and remember this disinfectant is a poison. Before leaving the sick room, and after all disquamation has taken place, the patient should be thoroughly washed, including the head, and fresh uninfected clothing put on, leaving everything else behind to be disinfected. Those who remain in the house where there is a case of the disease must carefully avoid contact with others, and must not go to school, church, or any general gathering, or to any house without the consent of the medical health officer. Sec. 12, of the "Health by-lay" provides that where isolation cannot be obtained at the house, or the dwelling in a thickly inhabited part of the city, the patient must be removed to the Isolation hospital, provided it can be done without danger to the life of the patient. Section 30 of the "Health by-law" provides that in cases of infectious diseases, the medical health officer shall cause a placard to be placed on the front of the infected house in a conspicuous place, and there maintained by the occupant till the medical officer orders its removal.

At the termination of the illness the infected premises must be disinfected, under the instruction of the medical health officer or by some one appointed by him. The infected room should be tightly closed, and with all its contents, fumigated for 24 hours, with the fumes of burning sulphur, in proportion of at least 3 lbs. to 100 cubic feet of air space, after all articles in the room have been so arranged as to be readily reached by the gas. Burn the sulphur over water. After fumigating the windows of the room should be thrown open and the floor and other woodwork should be thoroughly washed with a hot solution of corrosive sublimate, 1 to 1000 (6 grs. to 1 gallon of water), or carbolic acid, 1 to 20. All articles of little value that have been in the room should be burned. Clothing and furnishing that can be so treated should be boiled, and other things exposed to the fresh air for several days. Section 24 "Health by-law" provides that physicians and surgeons are required to immediately notify the medical health officer in writing with the names of person or persons suffering from scarletina, scarlet fever, diphtheria, membranous croup, whooping cough, measles, German measles, typhoid fever, small pox, typhus fever, yellow fever, or cholera. Section 69 of the Provincial Act requires householders to report immediately cases of infectious or contagious diseases occurring within their families of their household. Secion 14 "Health by-law" provides that any person departing from or entering any infected or quarantined house, or who shall remove anything from such place, shall be subject to a penalty of $100 or to three months' imprisonment with hard labor. Section 86 of the Provincial Act, states: Whenever a case of small pox, cholera, scarletina, diphtheria, whooping cough, measles, or infectious disease exists in any household belonging to which are persons attending school, the householder shall, within eighteen hours of the time of such disease is known to exist, notify the head teacher of such school or schools and also the local Board of Health, of the existence of such. Failure to comply with the above regulation may subject the householder to a fine of $50 and costs, or to imprisonment.

Whenever any householder or person belonging to any family, or dwelling in any lodging house, has reason to suspect or believe that any disease by which any member of the said family or person lodging in the said house is afflicted, is infectious or contagious, the said householder or person first mentioned herein shall notify at once some duly registered practictioner or the medical health officer, either in person or by writing, delivered at or posted to his address.

The previous resolution as to the duties of the medical health officer and sanitary inspector was rescinded, and the following adopted in its stead:

"Wherever difficulties have arisen between the medical health officer and sanitary inspector as to the extent of their respective powers under the health by-law, in cases of differences of opinion between such officers; therefore be it resolved that the sanitary inspector in all matters carry out all instructions of the medical health officer, who is hereby made responsible to the Board of Health for the due enforcement of all provisions of the said by-law.

SINGLE TAX CLUB.

Reorganized at a Public Meeting Last Evening.

There was a good attendance in the Temperance hall, Pandora street, last evening when the local leaders of the single tax movement met for reorganization. Alderman Macmillan presided, and opened the meeting with a short speech, briefly outlining the objects of the movement. The enrolling or members was proceeded with and a goodly number handed in their names and subscriptions, forming a far stronger and more representative body than has ever previously been enrolled. The election of officers then took place, and resulted in Dr. Ernest Hall being unanimously elected president; William Berridge, vice-president; James Mallett, secretary, and Mr. Edwards, treasurer. An executive committee was also chosen, consisting of Alderman Macmillan and Messrs. Harrison, B. H. West, Siverts, and Tubman.

It was arranged that the public meetings of the club should in future be held on every Wednesday night, in the Temperance hall, commencing on Wednesday, October 16th. This ended the preliminary business proceedings, and the new president, Dr. Ernest Hall, took the chair and addressed the meeting, maintaining that the movement was in no way political, but had for its object the social and religious welfare of mankind. Further addresses were also given by Rev. Ralph W. Trotter, Aldermen Macmillan and Cameron, and Messrs. William Berridge, B. H. West, and Edwards.

Much enthusiasm prevailed throughout, and never before in the city has anything like the interest been manifested in the movement. A general feeling is gaining ground that there is a great deal more in single tax than the name seems to imply.

METCHOSIN FESTIVAL.

Large Gathering at the Concert and Dance and Supper Last Night.

The Harvest Home Festival at Metchosin was one of the most pleasant affairs ever given in that hospitable locality. Ample preparations had been made for it, the guests were warmly welcomed and thoroughly entertained, and those in charge of it are entitled to the warmest praise. There was an informality about it that was most pleasing and all who participated were free from that restraint which often robs such gatherings of their real pleasure. The hall was decorated with products of the field, gathered and arranged by Mrs. Fisher, assisted by Mrs. Wolley and Mrs. Langely. The affair opened with a concert in which Capt. Trench, Mrs. Macnaughton Jones, Mrs. Langley, Geo. Bushby, Miss MacNaughton Jones, Mrs. Ellison and Miss Fisher assisted. It was followed by dancing, and at 11 o'clock supper was served. The supper was given by the ladies of Metchosin and was simply splendid. Dancing was resumed later and kept up for some time.

Over 125 attended the festival, and among the Victorians who were there were Hon. C. E. Pooley, the Misses Pooley, Lt. Col. Prior, M. P., Miss Prior, Miss Keefer, the Misses Loewen, Mrs. Macnaughton Jones, Miss Jones, Mrs. Raymur, Mr. and Mrs. Thomas Cossan, Mrs. Heathfield, the Misses Heathfield, Mrs. Cole, of Seattle, Mrs Wolley, Dr. Geo. H. Duncan, H. C Macaulay, Mr. Johnson, Frank Higgins George Bushby, Kenneth Macrae James Martin, A. J. Dallain, Mr. Goddard and G. T. Butler of Philadelphia.

ROYAL Baking Powder.
Highest of all in leavening strength.—U. S. Government Report.

DECLINED A PEERAGE.

Sir Edward Malet Considered his Wife's Feelings.

The Westminster Gazette hears that Sir Edward Malet (the retiring ambassador at Berlin) has informed Lord Salisbury that he does not intend to accept the peerage which has been informally offered him. Sir Edward declines the distinction because Lady Ermyntrude Malet would lose rank by his elevation, for she now takes precendance of countesses as the daughter of a duke married to a commoner. It is well known that a lady in the same position as Lady Ermyntrude Malet was so angry with the late Lord Derby for giving her husband a peerage that the first time she met the Tory minister afterwards she informed him that he had deliberately dishonored her, for now, being regarded officially as a baronet's wife, and not as a duke's daughter, she had to yield precedence "to all the rag, tag and bobtail of the peerage.

Ottawa News.

Ottawa, Oct. 5.—M. T. Johnson, of Victoria, has been appointed a member of the pilotage authority for Victoria district.

It has been about decided that the commission to assess the damages connected with the Behring sea seizures, shall sit at Victoria.

The revenue for the fiscal year closed yesterday was $33,929,800. During the last quarter the revenue was half a million dollars more, and the expenditure a quarter of a million less than last year.

Sir Julian Pauncefote had a conference this forenoon with Messrs. Bowell, Tupper and Costigan. Sir Hibbert Tupper afterwards entertained Sir Julian and Earl Westmeath to luncheon at the Rideau Club.

KEMPTON PARK RACES.

London, Oct. 5.—Seven horses started in the race for the Duke of York's stakes at Kempton Park to-day. Mr. A. Cohen's Missal won, Col. J. Lloyd's chestnut colt, Count Schomberg, second; Mr. C J. Blake's brown filley, Rockdove, third.

American News.

New York, Oct. 5.—A fatal accident occurred at the works of the Hudson County Arc Light Co., Hoboken, this morning. One man was killed and two injured by the bursting of a fly wheel weighing many tons.

Washington, D. C., Oct. 5.—United States Minister Terrell cabled Secretary Olney last evening from Thrapia as follows: "There has been tranquility for the last 48 hours. Kiamil Pasha has been appointed Grand Vizier. Heeding the influence in distant provinces of the recent events, I have renewed my demand for the efficient protection of missionaries."

Washington, Oct. 5.—General Mahone passed a very restless night and is considerably weaker than yesterday.

Chattanooga, Tenn., Oct. 5.—Neal Smith, negro, who assaulted and probably murdered Maggie Henderson at Cole City, was taken from jail last night by 250 men and riddled with bullets.

—A new and artistic sign board, bearing the name "A. B. Erskine," now adorns the front of the store of that enterprising merchant, on the corner of Johnson and Government streets.
